

SALMAN ALHARBI

Decision Intelligence Specialist | Data Science & MLOps

Riyadh | +966 590197730 | salman.alharbi.q@gmail.com | linkedin.com/in/salman-alharbi-data-scientist

SUMMARY

Decision Intelligence & Data Science Specialist with practical experience delivering applied AI solutions, data automation, and technical training across leading Saudi entities, including Tuwaiq Academy (with MoE), the Saudi Electricity Regulatory Authority (SERA), and the National Center for Meteorology (NCM). Experienced in deploying Local LLMs to maintain full data privacy, streamlining large-scale data workflows, and aligning processes with NDMO and Saudi PDPL regulations to support effective decision-making.

EXPERIENCE

Tuwaiq Academy (in partnership with MoE) - Jeddah, Saudi Arabia 07/2026 - 08/2026

Lead Technical Instructor | High School Track (Ages 15-17)

- **Cohort Leadership:** Led high school tracks across male and female cohorts, coordinating daily operations and acting as primary liaison with academy leadership.
- **Deep-Tech Delivery:** Instructed university-grade modules in Generative AI (Prompt Engineering) and Cybersecurity (adversarial threat simulations).
- **Applied Prototyping:** Mentored students in building IoT systems using Arduino sensors and interactive VR environments.
- **Event & Talent Direction:** Orchestrated final tech exhibition and coached student speakers for stage delivery, earning executive leadership commendation.

Saudi Electricity Regulatory Authority (via UNIVERSAL STEPS GROUP) - Riyadh, Saudi Arabia 12/2025 - 06/2026

Data Science Specialist Tamheer

- **Sourcing Innovation:** Engineered ingestion pilot harvesting 4-year data backlog (500K+ records) in 15 mins for SERA; scaled framework to 4 additional entities.
- **Process Optimization:** Compressed Awareness-to-Analysis decision cycle from hours to <5 seconds using local LLMs to guarantee 100% data residency per regulation.
- **Decision Intelligence:** Automated operational bottlenecks and transformed multi-source data into executive-ready insights for strategic regulatory oversight.
- **Sentiment Analytics:** Analyzed 5+ platforms to ensure high-fidelity institutional reputation and responsiveness.

National Center of Meteorology (NCM) - Jeddah, Saudi Arabia 06/2024 - 08/2024

Data Engineer Intern

- Automated hourly weather report processing using Python (Pandas, Regex), eliminating manual entry completely.
- Developed ICAO message classification system for flight arrivals via time-series analysis.
- Optimized SQL queries in DuckDB, improving database performance.
- Refactored legacy code with OOP and modular design for maintainability; implemented Docker containers and Git for consistency.

EDUCATION

Bachelor of Data Science 08/2020 - 01/2025

College of Computer Science and Engineering | University of Jeddah

- **Coursework:** Machine Learning, Data Mining, Big Data Analytics, Database Systems, Cloud Computing, NLP.

PROJECTS

Automated Insurance Decision Support System | Graduation Project 10/2024 - 01/2025

- Built YOLOv8 & EfficientNetB0 models: 81% detection, 93% severity assessment, 100% part ID across 21 discrete components.
- Processed 23,000+ real-world images using OpenCV/Pandas; designed rule-based actuarial cost estimator integrating all outputs.
- Deployed Streamlit decision platform generating audit-ready PDF claims dossiers under 60 seconds.

Saudi Real Estate Investment Valuation Engine | Predictive Analytics 10/2023 - 11/2023

- Predicted real estate asset valuations with R-squared 0.919 using optimized RandomForest Regressor.
- Built end-to-end ML pipeline with automated spatial and market feature engineering; benchmarked 7 candidate models.

CERTIFICATIONS

- | | | | |
|---|---------|--|---------|
| - Google Data Analytics Specialization Google | 04/2023 | - Calculus for Machine Learning and Data Science DeepLearning.AI | 09/2023 |
| - Linear Algebra for Machine Learning DeepLearning.AI | 11/2023 | - Python Programming University of Michigan | 05/2025 |

SKILLS & EXPERTISE

- **Technical Skills:** Python, R, SQL, SAP, Power BI, ETL, Data Pipelines, Docker, Git, Tableau, Machine Learning, Deep Learning, NLP, Computer Vision, Prediction Models.
- **Soft Skills:** Problem Solving, Analytical Thinking, Teamwork, Collaboration, Leadership, Time Management, Adaptability.
- **Governance & Ethics:** Saudi PDPL, NDMO Frameworks, Data Ethics, Regulatory Compliance.
- **Decision Intelligence:** ROI Analysis, Data Storytelling, Market Surveillance.
- **Languages:** Arabic (Native), English.
